

CATCH THE VIBE

Outward Bound Romania

N° of pax 6-12
group

indoors | outdoors

art expression
(photography,
creative writing)

1 hour

creative
thinking

PURPOSE

- To raise awareness about how different/similar we sense vibe of places/objects/nature elements
- Self-awareness
- Creative expression

MATERIALS

- A smartphone or camera
- 3 post-its pers person
- Pencil

PREPARATION

This activity can take place outdoors or indoors and need no preparation. Is just a way to connect with the place and observe the differences of perceiving places by different people.

INTRO

Everything circulates, pulses, surges on the nature of vibe – the frequency and rhythm of connection; the vibration works at the center of holism and sensuality.

Vibe = place - You go somewhere, and it feels right, the sensations are good

Vibe = person - You meet someone, and instantly, there is comfort, recognition, right warmth, balance

Vibe = rightfulness - You start a project, a process, and

it all seems to be linking up in your mind

Finding a vibe is about finding the right way to tell a story in a manner that a guest, audience, recipient, visitor, and experienter syncs with the moment.

STEPS

20 minutes - Each participant walks around the place indoors and outdoors with all the senses open and tries to find vibes that seem important for him/her. Takes a picture of the place, object, person, process, etc. and writes down on a post it the experienced sensations. This is repeated until everyone finds at least 3 vibes or the time is up.

20 minutes - The facilitator calls back all the participants and they sit down in a circle. Participants show around their pictures and talk about the sensed vibes.

REFLECTION

- How did you feel while walking around, connecting with the place and looking for vibes?
- How do you connect generally with places, people and processes?
